

Energy audits and Energy management systems in the Energy Efficiency Directive

Linking current article 8 to new article 11

Date, time, place: 22/11/2024, 10.30 am CET (Brussels, Rome time), online

Registration link: <https://events.teams.microsoft.com/event/7648847a-f9c6-49d4-9a0f-5068fbdda58c@f01418a6-08bc-47fd-b440-6cd70183d133>

Topic: Collecting, managing and assessing information from energy audits in Partner Countries

Background: Energy audits and Energy management systems have a long tradition in Europe, providing an excellent opportunity for enterprises to identify energy-saving potentials and company-specific energy efficiency measures. They are significant instruments to mitigate greenhouse gas emissions and play a key role in reaching the European Union's energy efficiency targets. Since the EED EU/2012/27 came into effect, EU Member States have transposed the requirements of Article 8 into national legislation and are now working on the transition from Article 8 to Article 11.

Goals of the workshop:

- Understand the main features of new article 11 in light of the recent Commission Recommendation (EU) 2024/2002 (guidelines for the interpretation of Article 11);
- Present the state of art of practices to collect, assess and use data from energy audits, energy management systems and energy efficiency measures in ten EU Countries;
- Present replicable case studies from different Countries covered by the LEAPto11 project.

Agenda

Time	Intervention	Speaker
10.30 am	Welcome and introduction to the workshop	Enrico Biele, LEAPto11
10.40 am	The Commission Recommendation 2024/2002 on the Guidelines for the interpretation of Article 11	Oronzo Daliso, European Commission
10.55 am	Energy audits and energy management systems in the EED implementation: input from Germany	Representative from Bundesstelle für Energieeffizienz-BAFA
First part: Energy audits and Energy Management Systems		
11.10 am	Analysis of Practices to Collect, Store and Assess Information from EAs and EnMS in 10 EU Countries	Ada Elsa Claus/Daniel Vallentin, dena
11.25 am	A recent assessment of energy audits under art.8 in Croatia	Igor Hegediš, EIHP
11.40 am	Questions, break	
Second part: Tracking the implementation of energy efficiency measures		
12.00 pm	Overview of the implementation of EE measures under current article 8	Chiara Martini, ENEA
12.15 pm	Tracking energy efficiency measures in the Portuguese SGCIE	Paulo Calau, ADENE
12.30 pm	Conclusions, wrap-up, end of the meeting	
		Enrico Biele, LEAPto11
